IE. Soft benevolent yellow glowing light, it is a large light, and is soft.

Feels very benign here, like a spiritual religious kindness about it. Very soft and gentle and harmless and kind.

The light is close to ground.

This is not a tall tower for instance.

I see a structure which is a flower-shaped basin on the ground. Some "petals" are bigger, some are smaller. Not very tall, but is rather wide.

This is on the ground, is very pretty.

This is a beautiful enchanting place.

This place deals with mysticism, mantra. A very soft, kind, gentle and harmless place. You don't get harmed here. This place is enchanting. People feel good here in their stomach/belly. It gives them a good feeling inside.

Water inside this basin, people sit on the edge of the basin and run their fingers through the water.

This place is a safehaven, meaning that it is specifically INTENDED for people to be SAFE here and out of harm. This is a place where you CAN feel peaceful and where you get a good feeling in your stomach.

A lot of beauty in this place. It is outdoors in a green park with green grass and green leafy trees.

This target has to do with the ground.

People come here to feel calm and

peace, they rest here and they feel serenity, and they relax in their whole body. I see again the bright yellow light here. This is a place of peace, where people can come. They can rest here, and bathe here, and they will always be safe and out of harm's way. This is why they have come. The light sparkles/glitters on the water in the basin.

PEACE

And here they feel that their hands have been washed and that their hands are clean. It's a glorious place and very BENIGN. People go here to feel safe, that is why they are seeking out this place. They want to feel this way. They wash their hands on this water. Nothing tastes bad here. People come here to bathe themselves and to wash clean. People feel really good here. This target is making me yawn and really sleepy.

There is mosaic here, of blue and yellow color.

There is an adjacent building further to the back in the drawing. It is connected by association but not physically, to the basin. People come here to wash themselves. And when they do, they look towards the building further up. The water in the basin is holy. That is why they wash themselves in it. I also see them dipping small off-white sheets of fabric.

Visual experience again for this target! I saw round white pebble stones on the bottom of the basin

under the water.

There are both men and women here.
Guards surround the outer perimeter
of this place to keep people safe here

The white pebbles are on the bottom
of the basin under the water. People
place the fabric on the edge and pick
up one of the white pebbles and rub
the pebble back and forth against
the cloth, as if it were a soap.

The guards are all facing inward.
This is a place where the people here
were TOLD to go, because here they
would have peace.

The yellow light is on the ground, is
warm and very PLEASANT.
