

Session PX11 Session Comment

ProjectX did not upload the drawing I had submitted because my internet crashed right at that time.

I was not able to submit the drawing afterwards, I asked the website admin.

It is ok, but the report on ProjectX does not include my drawing.

Fortunately the text and drawing are both as detailed and are both describing the same thing but in two different ways.

It is still a bummer but it is ok I guess because it has to be.
